

Section: 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**1.1 Product identifier**

Product name : Copper Brass Bronze Cleaner & Shiner (Liquid Concentrate)
Brand Name : Green Life Forever®
Other means of identification : Metal Cleaning Liquid Concentrate
Buffered Organic Acidic Cleaning Solution

Product dilution information : Recommended dilution: 100 mL concentrate in 300 mL demineralized water
Final use concentration : ~25% solution
Reference evaluation : ~1% solution
concentration (for hazard alignment) :

- pH (as sold): 2.0 – 3.0
- pH (1% solution): 3.1 – 3.5
- pH (at use dilution): 2.3 – 3.0

1.2 Relevant identified uses of the substance or mixture and uses advised against

Recommended use : Cleaning and shining of copper, brass, and bronze metal surfaces.
Intended Application : Industrial, institutional (HoReCa), and household use with proper safety precautions and instructions.
Restrictions on use :

- Not for consumption, ingestion or personal care applications
- Not for use on non-compatible surfaces (e.g., reactive stones, coated metals without testing)
- Not for use without dilution unless specified

1.3 Details of the supplier of the safety data sheet

Company : Green Life Forever®
GLF Consumer Products Private Limited
Flat No-1, 2nd Floor, Dilkusha Plaza, Hussainganj,
Lucknow – 226001, Uttar Pradesh, INDIA
Contact No:+91 80528 80529
(Available during office hours: 10:00 AM – 6:00 PM IST, Sunday Closed)
Email: live@greenlifeforever.org, help@greenlifeforever.org (24x7 support)

1.4 Emergency telephone number

Emergency Telephone Number : +91 88743 88744 (24x7 support)
(For region-specific emergency assistance, contact local poison control center.)

Section: 2. HAZARDS IDENTIFICATION

2.1 Classification of the Substance or Mixture (GHS)

Product AS SOLD (Liquid Concentrate)

- Classification (GHS)** : Not classified as a hazardous substance or mixture.
- Basis for Classification** : This product is a buffered organic acid-based cleaning system containing conjugate base salts (e.g., citrate buffers) that regulate free acidity.
- When evaluated as a 1% aqueous solution, the product exhibits a moderated acidic pH in the range of approximately 3.1 – 3.5, indicating effective buffering and reduced irritation potential. But based on composition (organic acids + surfactants) and acidic nature (pH 2-3):
- Skin irritation: Category 2
 - Eye irritation: Category 2A

Product AT USE DILUTION (~25% solution)

- Classification (GHS)** : Not classified as a hazardous substance or mixture.
- Basis for Classification** : At recommended dilution (100 mL in 300 mL water), the product:
- Contains < 25% active cleaning components
 - Forms a buffered solution with pH typically in the range of 2.3 – 3.0
 - Is designed for safe application under normal use conditions

2.2 Label Elements

Product AS SOLD (Liquid Concentrate)

- Hazard Pictograms** : 
- Signal Word** : Warning
- Hazard Statements** :
 - Causes skin irritation
 - Causes serious eye irritation
- Precautionary Statements** : Prevention:
- Wear protective gloves / eye protection / face protection
 - Avoid contact with eyes,
 - Wash hands thoroughly after handling
- Response:
- IF ON SKIN: Wash with plenty of water
 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing
 - If irritation persists: Get medical advice/attention
 - Take off contaminated clothing and wash before reuse
- Storage:
- Store in a cool, dry place, keep container tightly closed
 - Keep out of reach of children
- Disposal** : Dispose of contents/container in accordance with local regulations

Product AT USE DILUTION

Hazard Classification	:	Not classified as hazardous
Precautionary Statements	:	Prevention: <ul style="list-style-type: none"> • Wash hands after use Response: <ul style="list-style-type: none"> • Seek medical advice if irritation or discomfort occurs Storage: <ul style="list-style-type: none"> • Store in accordance with local regulations

2.3 Other Hazards
Product AS SOLD (Liquid Concentrate)

- May cause mild irritation upon prolonged or repeated exposure
- Avoid contact with eyes and sensitive skin

Product AT USE DILUTION

- No known significant hazards under normal conditions of use

Section: 3. COMPOSITION / INFORMATION ON INGREDIENTS
3.2 Mixtures
Product AS SOLD (Liquid Concentrate)
Pure Substance/Mixture : Mixture

Chemical Description	CAS No.	Concentration (%)
Water (Demineralized)	—	60 – 75
Organic Acids (including buffered citrate system)	Proprietary	10 – 20
Surfactants (Anionic + Amphoteric)	Proprietary	5 – 15
Inorganic Salts & Buffers (including Sodium Citrate)	Proprietary	3 – 8
Natural Gums & Binders (including Gum Acacia as corrosion inhibitor)	Proprietary	1 – 5
Stabilizing Agents	Proprietary	< 2
Fragrance (Orange)	Proprietary	< 0.2
Ingredients determined not to be hazardous	—	To 100

Product AT USE DILUTION

Component	Concentration (%)
Water	~ 75%
Active Cleaning Blend	~ 25%
Fragrance (Orange) & Color	< 0.2%

Hazardous Ingredients at Use Dilution : None required to be declared under GHS classification thresholds

SECTION 4: FIRST AID MEASURES

4.1 Description of First Aid Measures

Product AS SOLD (Liquid Concentrate)

- In case of eye contact** : Rinse immediately with plenty of water for at least 15 minutes, holding eyelids open. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical advice if irritation persists.
- In case of skin contact** : Wash with water. Use mild soap if available. Remove contaminated clothing. If irritation develops or persists, seek medical advice.
- If swallowed** : Rinse mouth with water. Do not induce vomiting. Seek medical advice if discomfort occurs.
- If inhaled (dust)** : Move to fresh air. Seek medical advice if symptoms such as irritation or discomfort occur.
- Protection of first-aiders** : No special measures required under normal conditions. In case of excessive exposure, use appropriate personal protective equipment (see Section 8).

Product AT USE DILUTION

- In case of eye contact** : Rinse with plenty of water. Seek medical advice if irritation persists
- In case of skin contact** : Rinse with water. No further treatment normally required
- If swallowed** : Rinse mouth. Seek medical advice if discomfort occurs.
- If inhaled** : Move to fresh air if discomfort occurs. Seek medical attention if symptoms occur

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Product AS SOLD (Liquid Concentrate)

- Eye contact: Redness, irritation, discomfort
- Skin contact: Mild irritation, redness
- Inhalation: Not expected to be significant hazard (low volatility)
- Ingestion: May cause discomfort

Product AT USE DILUTION

- No significant adverse effects expected under normal use conditions

4.3 Indication of Immediate Medical Attention and Special Treatment Needed

Notes to physician : Treat symptomatically. No specific antidote known

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing Media

Product AS SOLD (Liquid Concentrate)

Suitable extinguishing media : Use extinguishing measures appropriate to surrounding fire conditions, such as:

- Water spray
- Dry chemical
- Foam
- Carbon dioxide (CO₂)

Unsuitable extinguishing media : None known.

5.2 Special Hazards Arising from the Substance or Mixture

Product AS SOLD (Liquid Concentrate)

1. Product is not flammable or combustible
2. In case of fire, decomposition may produce:
 - Carbon oxides (CO, CO₂)
 - Organic decomposition vapors
 - Irritating vapors

5.3 Advice for Firefighters

Product AS SOLD (Liquid Concentrate)

Special protective equipment : Wear appropriate personal protective equipment, including self-contained breathing apparatus (SCBA) where necessary.

- Specific firefighting methods** :
- Cool containers exposed to fire with water spray
 - Prevent runoff from entering drains or water bodies
 - Avoid inhalation of fumes

Product AT USE DILUTION (~25% solution)

- No specific firefighting hazards known
- Treat as non-hazardous aqueous solution

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Product AS SOLD (Liquid Concentrate)

- Ensure clean-up is carried out by trained personnel where applicable
- Avoid contact with eyes and prolonged skin exposure
- Avoid splashing during handling. Ensure adequate ventilation
- Use appropriate personal protective equipment (see Section 8) if necessary

Product AT USE DILUTION (~25% solution)

- No special precautions required under normal conditions
- Avoid contact with eyes
- Follow general hygiene practices
- Refer to protective measures in Sections 7 and 8

6.2 Environmental Precautions

Product AS SOLD (Liquid Concentrate)

- Prevent entry into drains, soil, and natural water bodies
- Avoid large-scale environmental release

Product AT USE DILUTION

- No special environmental precautions required under normal use
- Large spills should still be contained to avoid unnecessary discharge

6.3 Methods and Materials for Containment and Cleaning Up

Product AS SOLD (Liquid Concentrate)

- Stop leak if safe to do so
- Contain spill using inert absorbent materials (e.g., sand, earth, vermiculite)
- Collect absorbed material into suitable, labeled containers
- Clean residual area with water
- Prevent large quantities from entering waterways

Product AT USE DILUTION

- Stop leak if safe to do so
- Absorb with inert material and collect for disposal
- Flush remaining traces with water
- For large spills, contain to prevent environmental entry

6.4 Reference to Other Sections

- See Section 1 for emergency contact information
- See Section 8 for personal protective equipment
- See Section 13 for disposal considerations

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Product AS SOLD (Liquid Concentrate)

- Advice on safe handling** :
- Avoid contact with eyes and prolonged skin exposure
 - Avoid splashing or direct exposure
 - Use only as directed on product label and SDS
 - Do not mix with other cleaning chemicals unless specified
 - Do not ingest
- :
- Ensure adequate ventilation during handling
 - In case of accidental exposure or unknown dilution, use appropriate PPE
- Hygiene measures**
- Handle in accordance with good industrial hygiene and safety practices
 - Wash hands and exposed skin thoroughly after handling
 - Do not eat or drink while handling the product

Product AT USE DILUTION

- Advice on safe handling** :
- Use as per recommended dilution and application instructions
 - Avoid direct contact with eyes
 - No special handling required under normal use conditions
- Hygiene measures** :
- Wash hands after use
 - Follow general hygiene practices

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Product AS SOLD (Liquid Concentrate)

- Storage conditions** :
- Store in properly labeled containers at a cool, dry, and well-ventilated place
 - Keep container tightly closed when not in use
 - Protect from direct sunlight and extreme temperatures
 - Keep out of reach of children
- Recommended storage-temperature** : 0°C to 50°C

Incompatibilities :

- Strong oxidizing agents
- Strong alkalis
- Reactive metals (without prior compatibility testing)

Product AT USE DILUTION

Storage conditions :

- Store in suitable, labeled containers
- Use prepared solution within a reasonable time for best performance

7.3 Specific End Uses

Product AS SOLD (Liquid Concentrate)

- Cleaning and shining of copper, brass, and bronze surfaces
- Intended for industrial, institutional (HoReCa), and controlled household use

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters

Product AS SOLD (Liquid Concentrate)

Components with workplace control parameters : Contains no substances with established occupational exposure limits at concentrations requiring disclosure.

Product AT USE DILUTION (~25% solution)

No exposure limits applicable.

8.2 Exposure Controls

1. Engineering Controls

Product AS SOLD (Liquid Concentrate)

- General ventilation is sufficient under normal handling conditions
- No special engineering controls required under normal conditions

Product AT USE DILUTION

No special engineering controls required

2. Personal Protective Equipment (PPE)

Product AS SOLD (Liquid Concentrate)

- Eye / Face Protection** : Safety glasses with side shields or chemical splash goggles
- Hand Protection** : Not normally required
For prolonged or repeated exposure, use protective gloves (e.g., nitrile or rubber)
- Skin Protection** : No special protective equipment required under normal use
- Respiratory Protection** : Not required under normal conditions

Product AT USE DILUTION

- Eye / Face Protection** : Not required under normal use
- Hand Protection** : Not required under normal use
- Skin Protection** : Not required under normal use
- Respiratory Protection** : Not required under normal use

3. Hygiene Measures

Product AS SOLD (Liquid Concentrate)

- Handle in accordance with good industrial hygiene practices
- Wash hands and exposed skin after handling
- Do not eat, drink, or smoke while using the product

Product AT USE DILUTION

- Wash hands after use with mild soap

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES
9.1 Information on Basic Physical and Chemical Properties

Property	Product AS SOLD (Liquid Concentrate)	Product AT USE DILUTION (~25% solution)
Appearance	Clear to slightly viscous liquid	Clear to slightly hazy liquid
Colour	Orange	Orange
Odour	Orange Fragrance	Orange Fragrance
Odour Threshold	No data available	No data available
pH	2.0 – 3.0 (1% solution: ~3.1– 3.5)	–
pH (at use dilution)	–	2.3 – 3.0
Melting point / Freezing point	No data available	~0°C
Initial boiling point / range	~100°C	~100°C (water-based)
Flash point	Not applicable	Not applicable
Evaporation rate	Similar to water	Similar to water
Flammability	Not flammable	Not flammable
Upper/Lower explosion limits	Not applicable	Not applicable
Vapour pressure	Similar to water	Similar to water
Vapour density	Not applicable	Similar to water
Relative density	~1.0 – 1.1	~1.0 g/cm ³
Water solubility	Completely miscible	Completely miscible
Partition coefficient (n-octanol/water)	No data available	No data available
Auto-ignition temperature	Not applicable	Not applicable
Decomposition temperature	No data available	No data available
Viscosity	Low to moderate	Low (water-like)
Explosive properties	–	–
Oxidizing properties	–	–

9.2 Other Information

- Buffered organic acid–citrate system designed for controlled cleaning action
- Contains sodium citrate for pH stabilization and buffering
- Contains gum acacia acting as: corrosion inhibitor, surface conditioning agent
- Liquid format eliminates dust exposure associated with powder handling
- Designed for controlled removal of metal oxides (tarnish) without corrosion

SECTION 10: STABILITY AND REACTIVITY

Product AS SOLD (Liquid Concentrate)

10.1 Reactivity

No dangerous reactions known under normal conditions of use.
Reacts with alkaline substances (neutralization reaction)

10.2 Chemical Stability

Stable under recommended storage and handling conditions.
Buffered system (organic acids + citrate) contributes to controlled stability

10.3 Possibility of Hazardous Reactions

No dangerous reactions known under normal conditions of use.
Contact with strong alkalis may result in neutralization

10.4 Conditions to Avoid

- Direct sunlight for prolonged periods
- Extreme temperatures beyond recommended storage range
- Unintended mixing with incompatible chemicals

10.5 Incompatible Materials

- Strong oxidizing agents
- Strong alkalis (may neutralize product effectiveness)
- Reactive metals without prior compatibility testing

10.6 Hazardous Decomposition Products

Under fire or extreme thermal decomposition, may produce:

- Carbon oxides (CO, CO₂)
- Organic vapors

Product AT USE DILUTION (~25% solution)

- Stable under normal conditions of use
- No hazardous reactivity expected under normal use
- No hazardous reactions expected
- No known hazardous decomposition products under normal conditions
- Avoid Mixing with incompatible chemicals like Strong Alkalis

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological Effects

- Information on Likely Routes of Exposure** :
- Eye contact
 - Skin contact
 - Inhalation (low risk due to liquid form)
 - Ingestion

1. Potential Health Effects

Product AS SOLD (Liquid Concentrate)

- Eyes** : Cause irritation, including redness or discomfort.
- Skin** : May cause mild irritation in sensitive individuals upon prolonged or repeated contact.
- Ingestion** : May cause temporary discomfort if swallowed in large quantities.
- Inhalation** : Not expected to pose a significant hazard under normal conditions
Mists (if generated) may cause mild irritation
- Chronic Exposure** : No known significant effects under normal conditions of use.

Product AT USE DILUTION (~25% solution)

- Eyes** : May cause mild transient irritation
- Skin** : No adverse effects expected under normal use.
- Ingestion** : No adverse effects expected under normal use.
- Inhalation** : No adverse effects expected under normal use.
- Chronic Exposure** : No known adverse effects.

2. Experience with Human Exposure

Product AS SOLD (Liquid Concentrate)

- Eyes** : Redness, irritation, discomfort
- Skin** : Mild irritation (in sensitive individuals)
- Ingestion** : No specific symptoms known; possible mild discomfort
- Inhalation** : Not expected under normal use

Product AT USE DILUTION (~25% solution)

No symptoms known or expected under normal conditions of use.

3. Toxicity Data

Product AS SOLD (Liquid Concentrate)

Acute Oral Toxicity	:	No data available
Acute Dermal Toxicity	:	No data available
Acute Inhalation Toxicity	:	No data available
Skin corrosion/irritation	:	Irritating (Category 2)
Serious eye damage/irritation	:	Irritating (Category 2A)
Respiratory or skin sensitization	:	Not expected to be sensitizing
Carcinogenicity	:	No known components classified as carcinogenic
Mutagenicity	:	No known mutagenic effects
Reproductive toxicity	:	No known effects
STOT (Single Exposure)	:	Not classified
STOT (Repeated Exposure)	:	Not classified
Aspiration Hazard	:	Not applicable

Product AT USE DILUTION (~25% solution)

- Not classified for acute toxicity
- Not classified for irritation
- No significant toxicological concern under normal use

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity

Product AS SOLD (Liquid Concentrate)

- No specific ecotoxicity data available for the mixture
- Based on components: Organic acids and surfactants may be harmful to aquatic life in high concentrations
- Avoid uncontrolled release into the environment

Product AT USE DILUTION (~25% solution)

- Not expected to be harmful to aquatic life under normal use conditions
- Diluted product is expected to have low environmental impact

12.2 Persistence and Degradability

Product AT USE DILUTION

- Components are expected to be readily biodegradable
- Organic acid system and surfactants are designed for environmentally responsible breakdown

Product AS SOLD

- Expected to degrade under environmental conditions after dilution

12.3 Bioaccumulative Potential

- No data indicating significant bioaccumulation
- Components are not expected to bioaccumulate significantly

12.4 Mobility in Soil

- Product is water soluble and mobile in aqueous environments
- Mobility decreases after dilution and biodegradation

12.5 Results of PBT and vPvB Assessment

This mixture does not contain substances classified as PBT or vPvB at reportable levels

12.6 Other Adverse Effects

No known significant environmental hazards under normal conditions of use

12.7 Additional Ecological Information

- Formulated using buffered organic acid system to reduce harsh environmental impact
- Designed for controlled cleaning action with minimized chemical load when used as directed
- Liquid format reduces particulate release compared to powder handling

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods

Product AS SOLD (Liquid Concentrate)

- Disposal methods** :
- Where possible, reuse or recycle product material
 - Dispose of contents/container in accordance with local, regional, and national regulations
 - Avoid large-scale release into the environment

- Disposal considerations** :
- Avoid release into the environment
 - Dispose of as unused product
 - Do not dispose of large quantities into drains or natural water bodies
 - Empty containers should be sent for recycling or approved waste handling
 - Do not reuse empty containers without proper cleaning or reconditioning

Product AT USE DILUTION (~25% solution)

Disposal methods : Diluted product may be safely disposed of via sanitary sewer systems in accordance with local regulations. Ensure dilution with sufficient water before discharge

- Disposal considerations** :
- Avoid excessive discharge into natural water bodies
 - Follow local environmental guidelines for disposal

Additional Guidance : Packaging materials should be recycled wherever facilities exist, Dispose of waste in an environmentally responsible manner & Follow applicable waste management regulations.

SECTION 14: TRANSPORT INFORMATION

Product AS SOLD (Liquid Concentrate)

The shipper/consignor/sender is responsible for ensuring that packaging, labeling, and documentation comply with applicable transport regulations.

Land Transport (ADR/RID / India Road Transport)

- 14.1 UN Number** : Not regulated
- 14.2 UN Proper Shipping Name** : Not regulated
- 14.3 Transport Hazard Class(es)** : Not regulated
- 14.4 Packing Group** : Not regulated
- 14.5 Environmental Hazards** : Not classified as environmentally hazardous
- 14.6 Special Precautions for User** : None required

Air Transport (IATA)

- 14.1 UN Number** : Not regulated as dangerous goods
- 14.2 UN Proper Shipping Name** : Not regulated
- 14.3 Transport Hazard Class(es)** : Not regulated
- 14.4 Packing Group** : Not regulated
- 14.5 Environmental Hazards** : Not regulated
- 14.6 Special Precautions for User** : None required

Sea Transport (IMDG / IMO)

14.1 UN Number : Not regulated as dangerous goods

14.2 UN Proper Shipping Name : Not regulated

14.3 Transport Hazard Class(es) : Not regulated

14.4 Packing Group : Not regulated

14.5 Marine Pollutant : No

14.6 Special Precautions for User : None required

14.7 Transport in Bulk : Not applicable

(Annex II of MARPOL / IBC Code)

Product AT USE DILUTION (~25% solution)

- Not regulated for transport
- Classified as non-hazardous aqueous solution

SECTION 15: REGULATORY INFORMATION**15.1 Safety, Health and Environmental Regulations / Legislation Specific for the Substance or Mixture**

- This Safety Data Sheet (SDS) has been prepared in accordance with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) as described in the United Nations publication, commonly known as the "Purple Book."
- Applicable national chemical safety and environmental regulations (India and international frameworks)

Product AS SOLD (Liquid Concentrate)

Regulatory Status:

- Not classified as hazardous for transport
- Classified under GHS for skin and eye irritation (Category 2)

Product AT USE DILUTION (~25% solution)

- Not classified as hazardous under GHS
- No specific regulatory requirements under normal conditions of use

International Chemical Inventories

Components of this product are either '**Listed**' on, or '**In compliance with**' major global chemical inventories, including but not limited to:

- **United States Toxic Substances Control Act (TSCA) Inventory**
- **Canadian Domestic Substances List (DSL)**
- **Australia Industrial Chemicals Introduction Scheme (AICIS)**
- **European Union REACH Regulation**
- **Japan Existing and New Chemical Substances (ENCS)**
- **Korea Existing Chemicals Inventory (KECI)**

- China Inventory of Existing Chemical Substances (IECSC)
- Philippine Inventory of Chemicals and Chemical Substances (PICCS)

(Based on supplier declarations and industry-standard compliance for mixture components)

NFPA Classification

Product AS SOLD (Liquid Concentrate)

Poison Scheduling (SUSMP): Not scheduled.

15.2 Chemical Safety Assessment

A formal Chemical Safety Assessment has not been carried out for this mixture.

SECTION 16: OTHER INFORMATION

Issuing Details

- **Original Issuance Date: April 19, 2026**
- **Revision Date: April 19, 2031**
- **Version: 1.0**
- **Prepared By Regulatory Affairs**

Revision Information

- No revisions to date.
- Future revisions will reflect significant changes in formulation, regulatory requirements, or safety information.

Literature References

- Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice
- Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)
- Australian Code and other references for the Transport of Dangerous Goods by Road & Rail

Key Abbreviations and Acronyms

- GHS – Globally Harmonized System of Classification and Labelling of Chemicals
- ATE – Acute Toxicity Estimate
- PBT – Persistent, Bioaccumulative, Toxic
- vPvB – very Persistent, very Bioaccumulative
- NFPA – National Fire Protection Association
- TSCA – Toxic Substances Control Act
- REACH – Registration, Evaluation, Authorisation and Restriction of Chemicals
- SUSMP – Standard for the Uniform Scheduling of Medicines and Poisons

Contact Person / Point

The company has exercised due care in compiling the information contained in this Safety Data Sheet. However, as the conditions of use, handling, storage, and disposal of the product are beyond the control of the company, no responsibility or liability (direct or indirect) is accepted for any loss, damage, or consequences arising from its use.

Disclaimer

The information provided in this Safety Data Sheet is accurate to the best of our knowledge, information, and belief at the date of publication. It is intended solely as guidance for safe handling, use, processing, storage, transportation, disposal, and release, and should not be considered a warranty or quality specification.

Classification and labeling may vary depending on regional regulatory requirements. This Safety Data Sheet has been prepared based on available data, intended use conditions, and recommended dilution practices. The information relates only to the specific product designated and may not be valid when the product is used in combination with other materials or in any process not specified herein.

Users and importers are responsible for ensuring compliance with all applicable laws, regulations, and standards in their respective jurisdictions. Emergency contact numbers relevant to the country of use should be consulted where applicable. Nothing contained herein shall be construed as a recommendation to use the product in violation of any patents, intellectual property rights, or applicable laws and regulations.

Users should rely on their own evaluation, knowledge, and inquiries to determine the suitability of this product for their specific applications and conditions of use. Each user is responsible for reviewing this Safety Data Sheet and considering the information in the context of how the product will be handled, stored, and used, including in combination with other substances.
