

# USER MANUAL

COPPER BRASS CLEANER &  
SHINER POWDER CONCENTRATE

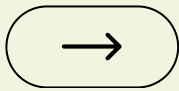

# IS CLEANING COPPER ONLY A DIY ?

- Copper & Brass utensils accumulate tarnish, sulfides, and oxides over time, leading to green spots known as patina.
- Tarnish, sulfides, and oxides hinder healthy Ion-Exchange in water, compromising its purity.
- Eating from tarnished copperware or brassware exposes individuals to toxic substances instead of benefiting from copper and brass properties. Acute Symptoms: Nausea, vomiting (often blue or green in color), abdominal pain, and diarrhea. Chronic Risks: potentially leading to liver or kidney damage.
- Clean copper utensils uphold the purity essential in rituals and worship practices, ensuring the sanctity of offerings.
- Maintaining the beauty of idols and artifacts relies on clean copper surfaces, preserving their aesthetic appeal and spiritual significance.

**Therefore, Cleaning Copper, Bronze & Brass is a scientific process rather than mere homemade DIY's. Green Life Forever® has a deep research for not only cleaning Copper without harm but also to maintain the shine for long.**

# GOODNESS INSIDE ME

- **Proprietary PHAT Technology:** The cleaner utilizes a specialized technology to deliver a streak-free shine.
- **100% Bio-Renewable Formula:** It is made from plant-based ingredients, ensuring a focus on sustainability rather than harsh chemicals.
- **Non-Toxic & Safe:** The formula is designed to be safe for both the user's skin and the natural environment.
- **Versatility:** It is effective not only on copper but also on brass, bronze, and other copper alloys.

## Convenience with Real Impact

2 Regular Packs of 400ml each

Makes

27 gm x 2  
Powder Concentrates  
Dissolves in Nanoseconds

**98% Less Carbon**

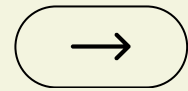

**NO Water**

**95% Less Plastics**

- **Hyper-Concentrated Design:** By using a concentrate that you mix with water at home, the product significantly reduces the environmental impact associated with transporting water, thereby saving energy and reducing plastic waste.

Your simple choice to use our hyper-concentrated product is a small effort that creates a real impact, **helping to save**

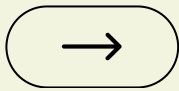

# HOW TO MAKE

## To prepare your Green Life Forever Copper & Brass Cleaner, follow these simple steps :

1. You will need the provided concentrate, a funnel, and 400 ml of RO/DM water.
2. Pour the concentrate into the mixing vessel.
3. Add the 400 ml of RO/DM water to it and stir until the powder dissolves.
4. Fill the prepared solution in the bottle & tighten the trigger pump securely your cleaner is now ready for use.

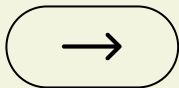

# HOW TO USE

**To clean your copper brass bronze items follow these steps :**

- 1.Ensure the item is free of heavy grease or oil, remove it first.
- 2.Application: Open the child lock on the spray bottle and spray the cleaner evenly onto the surface of the metal.
- 3.Scrubbing: Rub or scrub the item wherever you see tarnish or scaling.
- 4.Rinsing: Rinse the item with water once.

# TIPS

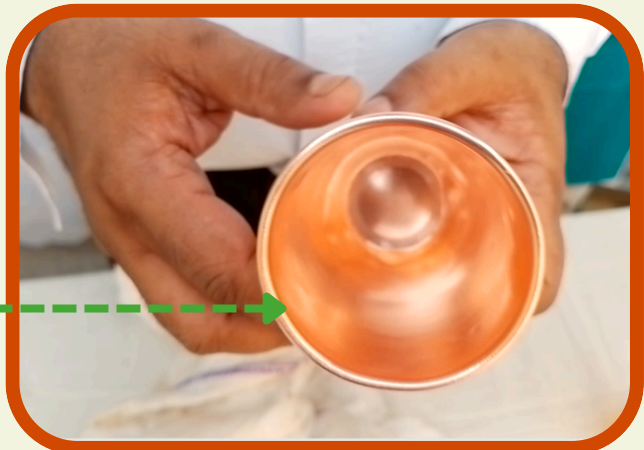

- 1. Maintenance for Lasting Shine:** To ensure the glow lasts for a long period, apply a regular dishwashing liquid to the surface, rub it gently, and rinse it again.
- 2. Finishing Touch:** Buff the item with a soft, dry cloth. Store in a poly bag when not in use to prevent oxidation from air and moisture.
- 3. For Heavy Tarnish:** If the item has stubborn dark or green buildup, soak it in the cleaner or putting a soaked tissue for a few minutes before scrubbing to fully restore its natural glow.

✔ Quick Radiance to the Dull Surface

After

✔ Removes Patina Tarnish Sulfides & Oxides naturally

Before

# PRECAUTION

- However it's a safe product but not a Toy hence,
